Investigation work – site investigations between Cheltenham and West Pennant Hills

Dear Resident

New signs are required on the approach roads to NorthConnex.

Between **Sunday 29 September** and **Sunday 27 October** we will be carrying out investigation work to help finalise the design of the signs. We will be at each location for up to **two shifts**. We will complete most of this work at night to minimise impact on traffic and to keep our workers and the community safe.

The work will be on:

- Pennant Hills Road, Carlingford (between the intersection of the M2 and North Rocks Road)
- The M2 Hills Motorway both east and west of Pennant Hills Road.

We have included a map to show the location of the work.

How will the work affect you

The site investigation work will involve locating underground services and utilities, surveying topography and surface features, drilling, minor excavation and backfilling, and minor footpath disturbance and reinstatement. You will experience noise during the work, we will make every effort to minimise impacts by:

- > using non-tonal reversing beepers on all machinery
- > turning off equipment and vehicles when not in use
- > using noise mats where possible
- > parking project vehicles away from homes
- > ensuring that lighting is directed away from residences as much as practicable.

Traffic changes

Traffic, access to driveways and bus stops will be maintained at all times. There will be temporary lane closures, traffic control and pedestrian management in place to ensure the safety of motorists, residents and workers. Please allow extra travel time and visit livetraffic.com, download Live Traffic App or call the Transport Management Centre 132 701 for the latest information.

Work hours

Day – 8am to 6pm Monday to Friday
Night – 8pm to 5am Monday to Friday
